Problem Statement

- *International students* in the U.S. must interpret **complex visa** and **government policies** to maintain their **legal status**, but critical information is **scattered**, **difficult to understand**, and **not personalized**.

  Without clear guidance on **what applies to them** and **what actions to take**, students **risk violating their status**, **missing deadlines**, and **experiencing high uncertainty**.

User Research

We interviewed 8 current international students

100%

said immigration & policy information is confusing or scattered

Root Causes:
- Information spread across school emails, USCIS, Reddit, friends
- Policies written in complex legal language
- Unsure which updates apply to them personally
- No single trusted dashboard

75%

said searching alone is overwhelming

Root Causes:
- Too many sources
- Conflicting advice online
- Hard to verify what is accurate
- Anxiety around making wrong decisions

88%

worry about accidentally violating visa rules

Root Causes:
- Unsure if jobs/internships are allowed
- Unclear travel requirements
- CPT/OPT rules difficult to interpret
- Fear of status loss from small mistakes

75%

missed or almost missed an important deadline

Root Causes:
- No centralized reminder system
- Deadlines buried in emails
- Hard to track OPT days, travel signatures, taxes
- Different rules for different visas

User Persona

01 New Arrival

- Newly arrived international student (first semester)
- Understand what to do to stay compliant; set up essentials fast
- Too much unfamiliar info; doesn't know what applies; afraid to miss early deadlines
- "Start here" checklist + personalized timeline + plain-language explanations

02 OPT Applicant

- Student approaching OPT application window
- Apply correctly and on time; avoid rejection or delays
- Conflicting advice online; unclear steps/documents; high stress around timing
- OPT step-by-step workflow + document checklist + deadline reminders + source-backed answers

03 OPT Participant

- Student currently on OPT (working or job searching)
- Maintain status; follow reporting rules; avoid accidental violations
- Confusing rules (reporting, unemployment days, job changes); uncertainty about "allowed vs not"
- Personalized compliance dashboard + "does this apply to me?" logic + high-risk alerts + escalation to DSO/official sources

04 Frequent Traveler

- Student who travels internationally (breaks, emergencies, conferences)
- Re-enter smoothly; avoid border issues; prepare the correct document
- Travel signature validity confusion; last-minute panic; unclear document requirements
- Travel readiness checklist + signature expiry tracking

Competitive analysis

01 USCIS website

- Official but complex and hard to navigate
- Not personalized
- Legal language

02 University ISS offices

- Helpful but limited availability
- Students wait days for answers
- Not 24/7

03 Online Forums (e.g. Reddit)

- Fast but unreliable
- Risk of misinformation
- No verification

04 Google search

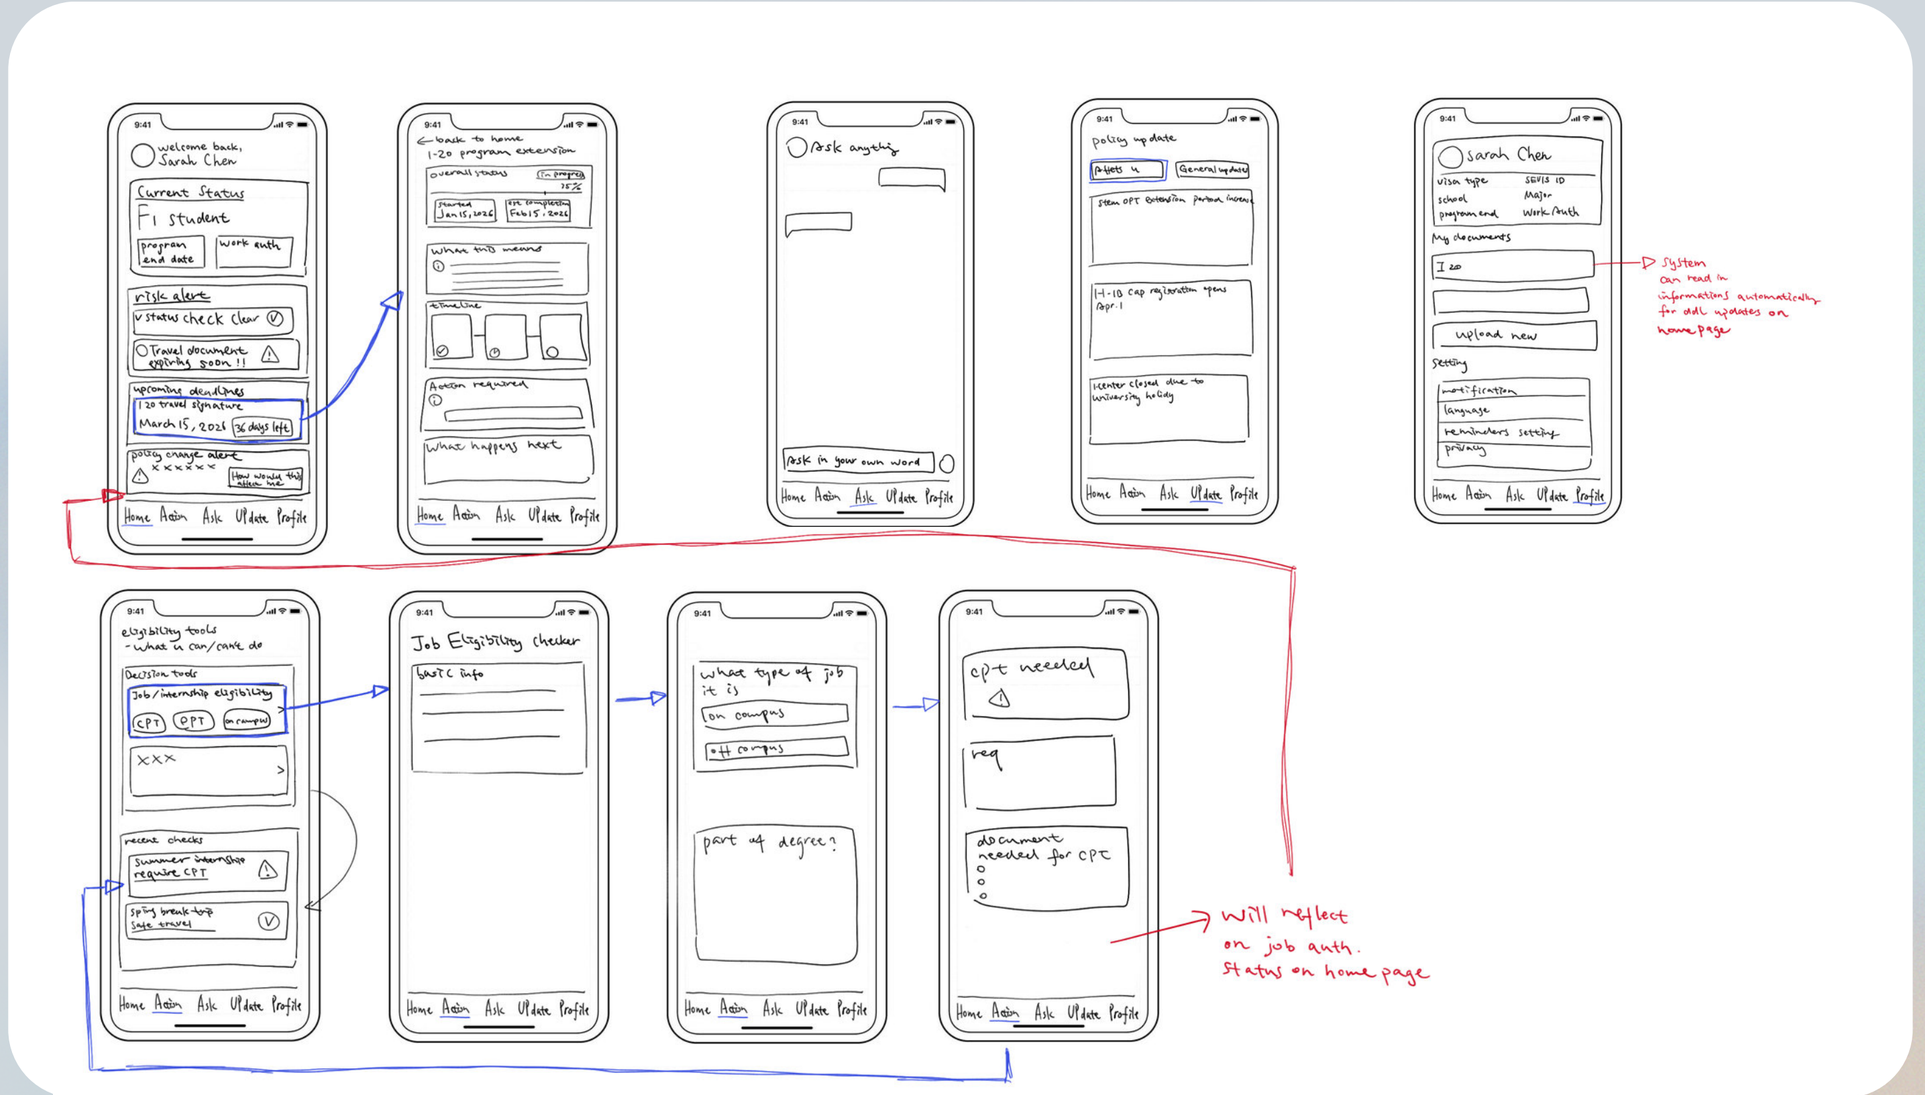

- Scattered and overwhelming
- Hard to know what applies to you

Our Solution: *Statusly*

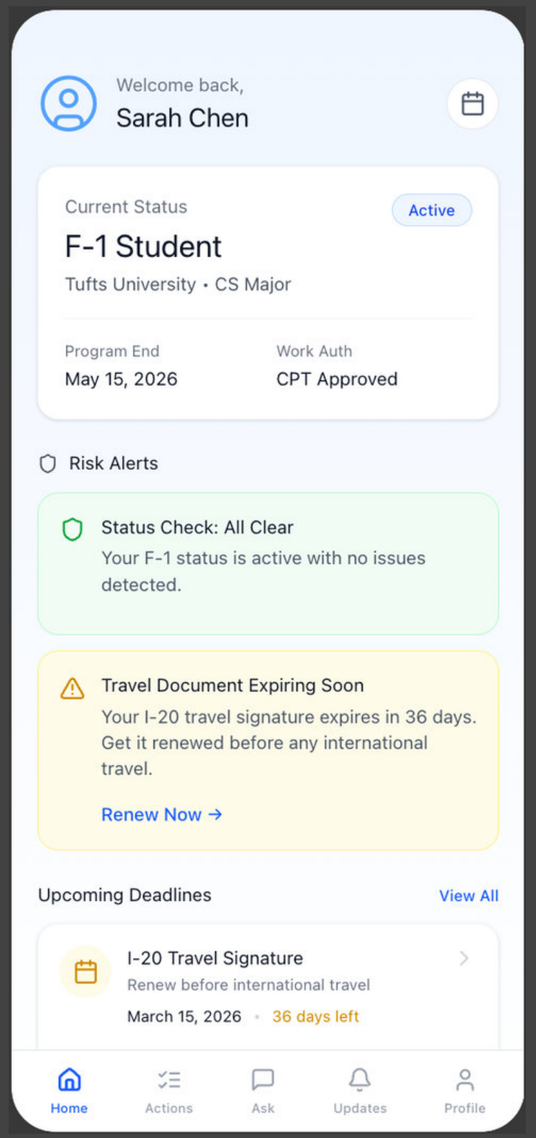

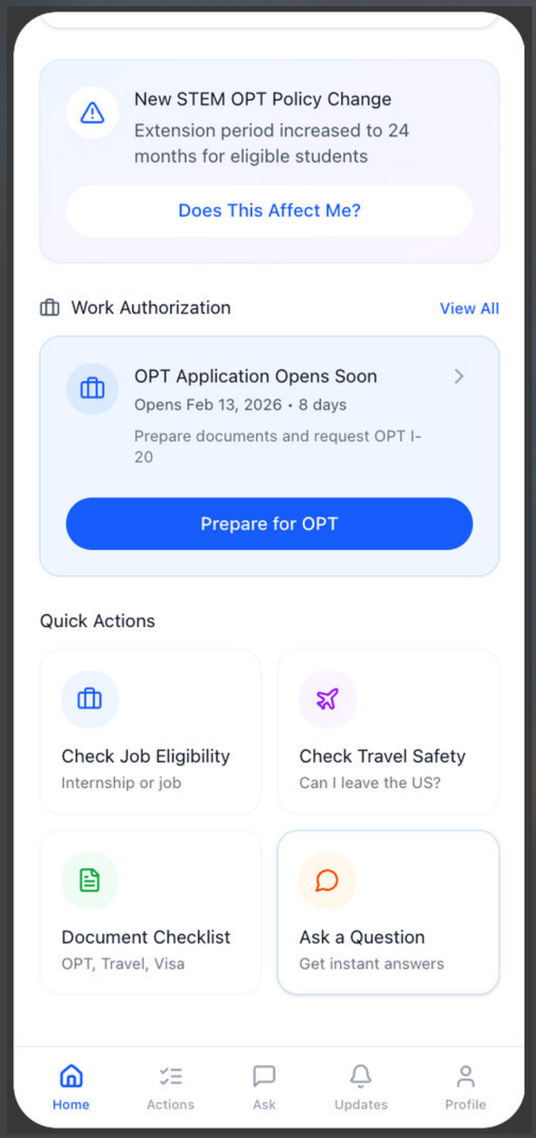

Statusly centralizes U.S. immigration and student policy updates into clear, personalized guidance—answering “Does this affect me?” and “What should I do next?” It also helps students stay compliant with tools for CPT/OPT checks, travel readiness, and key deadline tracking. Overall, Statusly reduces confusion and risk by bridging policy interpretation with timely, actionable support.

Key Competitive Advantages

USCIS?

- is official and accurate, but is complex, not personalized, and hard to act on;
- Statusly: personalized instructions+step-by-step actions

Tufts I-Center Email?

- high relevancy to the school in specific, but scattered, easy to ignore or spam;
- Statusly provides a centralized feed and reminders

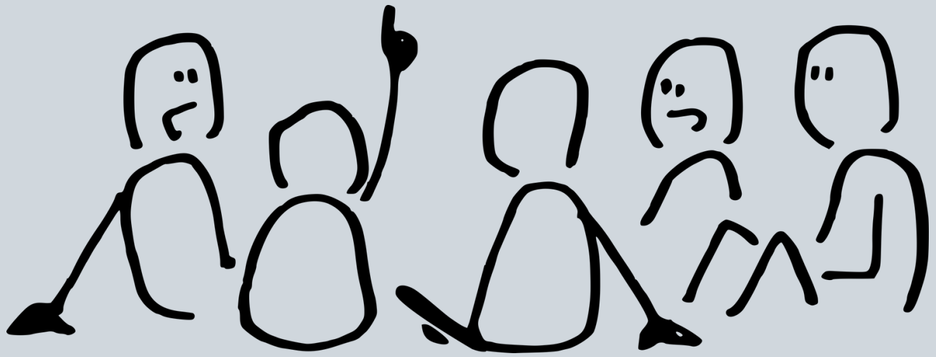

Reddit/student group chat?

- real experience, but unreliable, unverified, slow replies;
- Statusly guarantees the source's reliability and validity, and a more immediate response

Statusly

Market Size in the U.S.

~1.2 million
College students

~4,000
Universities

~1.6 million
active F-1/M-1 SEVIS record

Target Market

Primary:

- F-1 international students in the U.S. who are managing time-sensitive compliance tasks
- I-20 updates, travel signatures, SEVIS-related steps, OPT/CPT timelines, SSN + tax deadlines)

High-intent segments:

- Students approaching OPT (application window + uncertainty)
- Students on OPT (reporting requirements + work rules anxiety)
- Students who travel internationally (signature validity + re-entry stress)

Expanding:

- “Transition” users (F-1 → H-1B / other status changes), once trust is established

Market Strategy-7P

Product

- Personalized compliance hub for international students
- I-20 / Travel Signature / OPT timeline + policy updates filtered by relevance
- Trust features: source citations, last-updated, risk labels (low/med/high)

Place

- **Primary:** campus channels (ISSS/ISSO mailing lists, orientation, student orgs)
- **Secondary:** international student communities (WeChat/Discord/GroupMe) + university subreddits
- **Long-term:** partnerships with tax/SSN support programs and career centers (OPT/CPT)

Promotion

- Message: "**Know what applies to YOU** and what to do next—avoid missing deadlines or violating rules."
- Content wedges: OPT deadline calculator, travel signature reminders, top compliance mistakes
- Social proof: anonymized user insights + "missed deadline prevention" metrics

Process

- Onboarding collects key attributes → generates personal timeline + checklist
- Updates pipeline: monitor + summarize + tag applicability → push only relevant notices
- Q&A workflow always outputs: conditions + sources + action recommendation

Physical Evidence

- Verifiable references (USCIS/school pages), version history, and "why this matters"
- Completion tracking (done/not done), audit-style timeline, and notification logs
- Social proof: anonymized user insights + "missed deadline prevention" metrics

Marketing Plan & Success Metrix

- Phase 1 (0–2 wks): Campus Pilot
  - Channels: ISS groups + WeChat/Discord/GroupMe
  - Action: recruit 20–30 users → onboarding → timeline → reminders

- Phase 2 (2–6 wks): School Partnership
  - Channels: ISSS newsletter + orientation + resource page
  - Action: launch School Pack (school-specific workflow templates)
-
- Phase 3 (6+ wks): Scale
  - Channels: SEO + short content + peer ambassadors
  - Action: OPT/Travel/I-20 checklists → landing page → onboarding

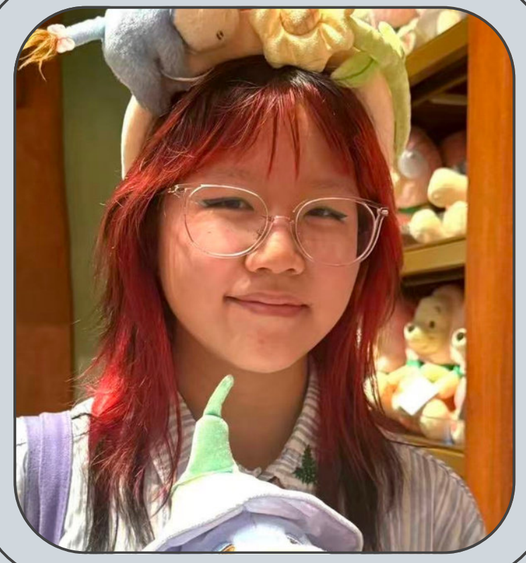

- Acquisition: weekly sign-ups, channel conversion rate
- Activation: onboarding completion %, first timeline created %
- Retention: D7 / D30 retention, weekly active users (WAU)
- Outcome: reminder→task completion %, "almost missed deadline" V (survey)
- North Star: on-time compliance actions per user / month
